Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Mr. Olsen had expresses that the inventive concept lies in a form having four walls with "irregularly-shaped" veneer components lining the walls in "a vertical manner". Examiner had stated that such language would have to be reviewed upon receipt of amendment. Further, Examiner had indicated that language to "stacked vertically against at least one panel" may not provide any weight with regard to patentability unless a positive reference to the ground were to be included .
